Camp Audubon Covid-19 Health Plan

The following plan has been developed following guidelines from the Maryland Department of Health, Center for Disease Control, and American Camp Association.

**Pre-Screening**
- Upon arrival at camp each day, all staff are required to take their temperature, fill out a questionnaire based on CDC guidance, and record temperature data in the staff health log.
- All campers are required to have their temperature taken by camp staff upon arrival, and parents must fill out a questionnaire at every drop-off based on CDC guidance. Camper questionnaires and temperature logs will be kept in a locked cabinet in the camp office. Only the camp director and camp administrator will have access to the logs to maintain confidentiality.
- All campers must be legal residents of the state of Maryland.
- Individuals of any age with underlying medical conditions that are considered to be higher-risk for severe illness if they contract COVID-19 must obtain clearance from their primary care physician approving them to work or attend camp.

**Infection Control Strategies**

**Masks/Personal Protective Equipment**
- All staff and campers will maintain 6 feet apart whenever possible.
- Camp staff will wear masks at all times. Campers will wear masks when indoors due to inclement weather, while receiving first aid, and at drop-off/pick-up. Parents will wear masks at drop-off/pick-up.
- The camp director will wear a medical grade mask, gloves, and face shield when administering first aid or interacting with campers in the indoor camp office. Interactions between the camp director and individual campers will be kept to 15 minutes or less whenever possible.
- Each camper and staff member will have access to alcohol-based hand sanitizer.
- Staff and campers will practice recommended regular and routine handwashing practices.
- Camp will avoid use of items that are not easily cleaned and disinfected.
- Staff and campers will practice proper use, removal, and washing of cloth face coverings.

**Facilities**
- All camps will take place entirely outdoors on our 40-acre nature sanctuary.
- All facilities will be cleaned and disinfected daily.
• Each group of 8 campers and 2 staff will have their own outdoor bathroom and hand washing station.
• Each group will have an outdoor “home base” where the group will leave their belongings and gather for lunch and crafts.
• Each group will remain separate and will not interact or share spaces with other camp groups.
• Drop-off and pick-up will be staggered with some camps running from 8:30am-3:30pm and some from 9am-4pm.
• Individuals from outside the camp are limited in their interactions with staff and campers, including parents during camper drop off/pick up.
• No transportation or food services will be provided.

Education
• Staff will be trained on COVID-19 symptoms and response.
• Campers and staff will be trained on proper cough and sneeze hygiene, and signs with graphics will be posted.
• Campers and staff will be trained on proper hand washing techniques, and signs with graphics will be posted.
• Staff training will be conducted online as much as possible.
• Signs will be posted in visible locations with COVID-19 prevention and control practices.

Response and Management for Covid-19
• Any staff or child exposed to a person diagnosed with a confirmed or probable case of Covid-19 may not work or attend camp until they have completed self-quarantine following CDC guidelines.
• Persons who have recovered from COVID-19 must be cleared for release from isolation according to CDC guidelines.
• Any staff or camper who exhibits signs of illness or elevated temperature may not work or attend camp. Persons who have a fever of 100.4°F (38.0°C) or above or other signs of illness are not permitted to work or attend camp.
• If a staff member or camper develops symptoms of COVID-19 during camp:
  - The individual will be safely isolated from their group in a designated sick area.
  - The individual will wear a mask while in the sick area.
  - Our health supervisor and the parent/guardian will be notified.
  - The camper or staff member will be transported home or to a healthcare facility as soon as possible.
  - The camp director or health supervisor will contact the Montgomery County health department.
• If a group has a staff member or a child that is found to have a confirmed or probably case of COVID-19:
  - The group shall quarantine following CDC guidelines.
  - Individuals may not work at or attend camp until completing self-quarantine and obtaining clearance from the individual’s primary care physician.
  - The above isolation protocols will be followed for the individual.
  - The camp director or health supervisor will contact the Montgomery County Health Department.
  - Thorough cleaning and disinfection of the facility will take place within 24 hours.
  - Based on consultation with the local health department, the entire camp may be closed based on level of contact and potential exposure.
